Always on the Run

Lyrics by OpenAI and Thomas Birchfield

[Verse 1]

"Sliders, Quinn, the Professor, Wade and Rembrandt
Exploring the multiverse, they never relent
They jump through the vortex and search for a clue
To find their way home, they must make it through"

Their mission is to find a way back home
No matter what, they'll never give up
They'll keep searching 'til their time is up"

He's always quick to come up with a plan or two
The Professor's knowledge is their greatest asset,
Wade and Rembrandt help them through the mess"

Their mission is to find a way back home
No matter what, they'll never give up
They'll keep searching 'til their time is up"

Their journey's full of danger and surprises abound
But no matter what, they'll never give in, until they find the way back home again"

Their mission is to find a way back home

Wrong Professor

Lyrics by OpenAI and Thomas Birchfield

[Verse 1]

My heart is aching, my mind is in pain
The wrong professor slid into this world again
He's searching for answers, but he's not sure what to do
He's lost in confusion and feeling so blue

[Chorus]

Oh, the wrong professor slid into this world
He's searching for a way to right what he unfurled
He's trying to find a way out of this mess, but it's all just a big game of chess.

[Verse 2]

He's looking for answers, but they're hard to find
He's searching for a way to leave this world behind
He's trying to figure out what went wrong
But it's like he's been here all along

[Chorus]

Oh, the wrong professor slid into this world
He's searching for a way to right what he unfurled
He's trying to find a way out of this mess
But it's all just a big game of chess

[Verse 3]

He's searching for clues, but they're hard to come by
He's struggling to make sense of this duplicate world
He's trying to find a way out of this place, but it's like he's stuck in an endless space

[Chorus]

Oh, the wrong professor slid into this world
He's searching for a way to right what he unfurled
He's trying to find a way out of this mess
But it's all just a big game of chess

Crying

Lyrics by OpenAI and Thomas Birchfield

[Verse 1]

Rembrandt Brown was sliding, he was feeling so low
He had lost all his friends and he'd no place to go
He was searching for something that he could never find
So he decided to take a ride in his Cadillac, yeah

Sliding, sliding, he's just sliding away
He's searching for something that he can't explain
Crying, crying, Rembrandt Brown is crying
He's looking for a way out of his pain.

[Verse 2]

His Cadillac was rolling, the wheels spinning round
He was trying to forget all the pain he had found
He was searching for something that he could never find
So he decided to take a ride with his cabbie, yeah

Sliding, sliding, he's just sliding away
He's searching for something that he can't explain
Crying, crying, Rembrandt Brown is crying
He's looking for a way out of his pain.

The sun was setting, the night was drawing near
He was feeling so lost, he had no one to hear
He was searching for something that he could never find
So he decided to take a drive in his red Cadillac, yeah

Sliding, sliding, he's just sliding away
He's searching for something that he can't explain
Crying, crying, Rembrandt Brown is crying
He's looking for a way out of his pain

Tears in my Fro, Cry Like a Man

Lyrics by OpenAI and Thomas Birchfield

[Verse 1]

It's been a long and hard road, but I'm still standin'
These tears flow freely, like a river with no endin'
I'm livin' life the best I can, even when the sea is risin'

[Chorus]

Tears in my Fro, Cry Like a Man
My emotions ain't no stranger to this land
Can't stop the rain from fallin', I gotta understand
Life's gonna be rough, that's just part of the plan

[Verse 2]

I won't be held down by the pain and the doubt
Lift myself up and never ever hear a resound of my crying

[Verse 3]

Some days are just too much for me to take
Letting go of the world is the only way I can escape
Pain and sorrow, familiar foes I can't defy
Every tear that I cry is a reminder why

[Chorus]

Tears in my Fro, Cry Like a Man
My emotions ain't no stranger to this land
Can't stop the rain from fallin', I gotta understand
Life's gonna be rough, that's just part of the plan

[Bridge]

It's alright to shed those tears in my Fro
I'll stand up tall and fight like a soldier
Letting go of all the pain, I won't let it break me down
Cry Like a Man with Tears in My Fro.

[Verse 4]

No matter how hard it gets, I'll never give up
Puttin' on a brave face, even when my heart's so broken up
Through strength and courage, I'll fight to the end
Cause I know deep down that I can still win

[Chorus]

Tears in my Fro, Cry Like a Man

My emotions ain't no stranger to this land
Can't stop the rain from fallin', I gotta understand
Life's gonna be rough, that's just part of the plan

[Outro]

My tears are my strength, to survive the storm
My courage and faith, even through the darkest of days
No matter what life throws at me, I'll take it on my own
Tears in my Fro and Cry Like a Man, that's my prayer until I go home.

Timer of Fate

Lyrics by OpenAI and Thomas Birchfield

[Verse 1]

We've got a mystery, going to save the day
We hop between worlds, time's the price we pay
Got to make it count, the stakes are high
Woah-oh-oh
Sliding through the quantum sky

[Chorus]

Ticking away, the Timer of fate
The fate of our lives, that's what it's set to determine
Gotta set a pace, each second counts
Woah-oh-oh
We're chasing after our destiny

[Verse 2]

Got to make it fast, gather all the clues
The rules in each world, sometimes they confuse
We'll never give up, nothing will stop us now
Woah-oh-oh
Keeping track of time, it's a do-or-die

[Chorus]

Ticking away, the Timer of fate
The fate of our lives, that's what it's set to determine
Gotta set a pace, each second counts
Woah-oh-oh
We're chasing after our destiny

From one world to the next, the Timer is our guide
We'll find the truth and save the day, let the fire ignite
Doing this for the ones we love, fueled by our desire
Woah-oh-oh, We won't give up without a fight

Ticking away, the Timer of fate
The fate of our lives
That's what it's set to determine
